

Please do not preempt the Indiana Telephone Privacy Act. Prior to signing up for the "No Call"list, I received approximately 12-15 telemarketing call per week. They came at all hours of the day and night. My family time was interrupted frequently. I could not afford to not answer the calls since we have teenagers who are out in the evening and I feared that they were trying to reach me. I work 10-12 hours per day and when I come home my private time is essential to my survival. Please, please do not preempt the law.
